Dept. of Justice.

This is a great company in a great country. Microsoft built a better mouse trap and people want it. This country was build on competition, and great ideas. We should have more people like Bill Gates, and no more Bill Clinton.

This is a hugh waste of tax payer dollars. And I for one have seen enough waste to last a thousand years. For anyone that is crying about Microsoft,if you can't stand the heat, get out of the kitchen.

Sincerely

Dean Parsons
